Sorry for any typos in the above list!

Dear All, please find above the results of the second exam. Unfortunately I do not have the results of the first exam at home, but I hope you all remember your grades (if you wish, send me a mail with your first exam's result and will write back your overall grade), so based on that you could compute the overall grade. I will have the first and second exams with me on Tuesday and will be able to discuss the overall grade. If any of you would like to rewrite the first exam, please write me an e-mail (daroczi.gergely at btk.ppke.hu) and also meet at 2 o'clock on Tuesday in front of the room 415. Best, Gergely

About final grades: I will sent the results to prof. Tamás Bartus and he will be able to enroll those to the Neptun system.
